WE ARE YOUR AUDIO VISUAL TECHNOLOGY INTERGRATOR

Welcome to Scooptech Dubai, a leading full-service audio visual technology integrator, providing complete audio visual solutions to organisations across the Middle East region.

Established for 6 years, our objective is simple: to meet and exceed client expectation by providing state-of-the-art AV Solutions that feature the best technology on the market, at a cost-friendly price

Our expertise includes consultancy, Innovative technical AV design, Project management, installation and post-sales maintenance, including tailored 24/7 support packages. Our experience and knowledge span the entire range of AV systems available, with specific skills in the corporate, Hospitality, Government, Higher Education and Stadia cectors.

WHY CHOOSE SCOOPTECH

We are a reputable, professional and passionate group of AV engineering specialists. Our company values are at the heart of everything we do.

HONEST

- We have an open and honest communication policy. We keep the right people involved at every stage of the project.
- We are realistic when providing you with the facts and figures behind your audio visual investment.
- Our relationships are built on trust. Our clients know that we will deliver the most economic and future proof AV solutions the first and every time.

TRUSTED

- We explore AV systems and product options carefully before selecting the most suitable solution for you.
- We offer expert AV installation and tailored aftercare packages, depending on your needs.
- We are always here. We will advise you on how to stay in control of your AV system and technology and are ready to solve problems, if they arise.

EXPERT

- We are AV specialists. We know what works now and we have a close eye on where the future of AV is taking us.
- We get under the skin of your business operations. We use our knowledge and expertise to understand your exact needs and deliver what's required.
- We invest in our staff to ensure we are providing nothing short of the best service to our clients.

THE COMPLETE PACKAGE

01

Consultation

We work closely with our clients to capture their requirements, project vision and understand the demands of their environment.

02

System Design

Our CTS-D qualified designers bring together expert technical knowledge with years of practical industry experience to design professional and reliable AV systems.

03

Project Management

Our Project Managers coordinate the delivery of the system and all third party relationships, ensuring the project is delivered on time and within budget.

04

Installation

Our installation engineers are qualified to the highest industry standards and carry out a wide range of installation services.

05

Custom Engineering

We specialise in bespoke audio visual solutions and have the resources, expertise and experience to deliver the right audio visual solution, regardless of the project size or objectives.

08

Support

We offer a range of maintenance and support services as well as flexible 24/7 cover

06

Test and Commission

Off-site test and commission is carried out prior to client sign-off, using annually calibrated test equipment at our workshops

07

Documentation

Upon project completion, training and operation manuals are provided as well as all drawings and other supporting documentation
